

North Dallas Investment Group, Inc.

Fox 4 News Video Interview

Chapman, Hext & Co, P. C. (CH&CO) has an affiliate company, The North Dallas Investment Group (NDIG), that has operated an "Angel Group" for a number of years. For those of you who are not familiar with the terminology, "Angel Group", it is an organization where accredited investors can review the business plans of early stage companies that need a small amount of capital and are looking for individuals to invest.

We want to let everyone know about NDIG and the exciting changes that are taking place to make potential investments easier for investors to access and review. To do this, NDIG has adopted a new online software platform for deal flow called Angelsoft. We have integrated this system into our website to take in deal flow from entrepreneurs and to also provide our investors with an online portal for viewing the information. Angelsoft also helps us manage activity and lets you see NDIG deals on the web. It is a new system designed specifically for the early stage investor market, and is being used by other groups in Texas such as Houston Angel Network,
